Oliver Rowland

Full Stack Developer

Houston, Texas · hello@oliverrowland.dev

About

I’m a full stack developer with experience building web applications focused on performance, scalability, and usability. I specialize in creating responsive frontend interfaces, developing reliable backend systems, and working across the full product development process using modern technologies and clean development practices.

Experience

Senior Full Stack Developer · Northstack
Jan 2025 – Present

Leading full-stack development for scalable web applications and reliable digital products across teams.

Full Stack Developer · Northstack
Jan 2023 – Dec 2024

Worked on responsive web applications, API integrations, and backend systems using modern frameworks.

Frontend Developer · Pixelbase
Apr 2021 – Dec 2022

Developed responsive user interfaces and interactive web experiences for client and internal digital products, focusing on usability, accessibility, and performance.

Junior Web Developer · CloudCore
Aug 2020 – May 2021

Supported frontend and backend development tasks while contributing to modern web projects, maintaining internal systems, and improving workflow efficiency.

Education

Master of Software Engineering
Texas State University · 2018 – 2020

Bachelor of Computer Science
University of Houston · 2014 – 2018
